## SUMMARY

As a UI/UX Designer with a year of hands-on experience, I am dedicated to crafting user-centric digital experiences that seamlessly blend aesthetics with usability. Additionally, my expertise lies in effectively bridging the gap between creative design concepts and functional user interfaces. I eagerly embrace learning opportunities to expand my skill set and confidently tackle any design challenge. I am skilled in collaborating with cross-functional teams to deliver exceptional digital experiences.

## UI/UX PROJECT

**Thrend** - A mobile application for Thrift Shopping

“Thrend” is the concept of a thrifting application, enabling users to browse and purchase preloved and vintage clothing at affordable prices from across India while championing sustainable fashion. ([Check it here](#))

**Reco** - A mobile application for Waste Management.

“Reco” presents a waste management application, empowering users to effortlessly sell household, institutional, and various types of waste and scrap materials at market prices, and as per their convenient time. ([Check it here](#))

**Personal Website** - A website to showcase my Expertise and Portfolio.

I have designed and developed a website from the scratch to showcase my expertise and portfolio of work. ([Check it here](#))

## WORK EXPERIENCE

**Tekzen System** - Mysore, India

March 2023 - Present

UI/UX Designer

- Hands-on experience in using industry-specific software and tools.
- I have contributed to over 10 projects involving dashboards, web pages, mobile app screens, responsive design, and more.
- Crafted dynamic, interactive prototypes to illustrate design concepts and gather stakeholder feedback.
- I have played a pivotal role in increasing design approval rates by delivering designs in a manner that requires very few modifications.
- 80% of the time, my designs are approved without any major modifications
- Collaborated closely with 20+ Stakeholders, UI developers and testers to translate design concepts into fully responsive websites, ensuring impeccable functionality across diverse platforms and devices
